

PFC COUNSELING FINANCIAL POLICY

Welcome to your counseling appointment today. Please read this policy about payment and feel free to ask any questions about it.

Parker Family Care will bill your insurance company for your counseling appointments. This is usually a covered expense by insurance plans. However, if your insurance plan does not cover this, or if you have out-of-pocket expenses, we will then bill you.

For counseling sessions, we will initially bill your insurance. However, your insurance plan may not reimburse us for these services. In some cases it is not a covered benefit. In other cases, your plan may only pay if you use certain counselors. You will be billed if your insurance claim is denied.

I have read the above information and agree to make payment if required.
